

AYAN JAVED

Junior Flutter App Developer

Vehari, Pakistan | ayanjaved803@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Flutter & Dart developer with hands-on experience building and shipping 15+ production-style cross-platform mobile applications, including full-stack, AI-integrated, and Firebase/Supabase-backed apps. Skilled in state management (Provider, Riverpod), REST API integration, local and cloud databases, CI/CD with Codemagic, and AI chatbot integrations (Gemini, Groq, OpenAI). Consistently active on GitHub with 242+ contributions in the last year across 25+ repositories. Seeking a Flutter Developer role to contribute to scalable, production-ready mobile applications.

TECHNICAL SKILLS

Languages: Dart

Frameworks: Flutter (Cross-Platform Mobile Development)

State Management: Provider, Riverpod

Backend / BaaS: Firebase (Auth, Firestore, CRUD), Supabase

Databases & Storage: SQLite (sqflite), Firestore, Supabase Postgres, Hive, SharedPreferences

APIs & AI: REST APIs, Gemini API, Groq AI API, OpenAI API

Data Handling: Data Pagination, Lazy Loading

CI/CD: Codemagic

Tools: Git, GitHub, VS Code, Android Studio

UI/UX: Material Design, Custom Widgets, Responsive Layouts

PROFESSIONAL EXPERIENCE

Mobile App Developer Intern, WeConnect Innovation Jun 2025 – Aug 2025

- Developed and maintained cross-platform mobile applications using Flutter & Dart during a 3-month internship.
- Collaborated with the team on real-world app features including Firebase integration and REST API consumption.
- Gained hands-on experience in agile workflows, code reviews, and production-level app development.

KEY PROJECTS

- Bakemate (Full-Stack App):** Flutter frontend with backend integration for CRUD, authentication, and API-driven data flow, resulting in smoother end-to-end usability.
- Doctor Appointment & Ambulance Management System:** Flutter healthcare app using Firebase and Supabase, with role-based access for admins, doctors, and patients, supporting doctor appointment booking and real-time ambulance booking/status management.
- CV Portfolio:** Responsive portfolio app showcasing projects and skills, improving recruiter-facing presentation and navigation.
- AI Chatbot Suite (Gemini, Groq, OpenAI):** Real-time streaming chats with Provider state management, achieving faster response handling and smoother conversation flow.
- Task Manager App:** CRUD task manager with local persistence, improving offline reliability and faster task input.
- Quiz App:** MVVM quiz app with dynamic scoring, delivering faster, more responsive user input handling.
- Weather App:** Real-time weather lookup via REST API, improving data accuracy and load speed by city.
- Expense Tracker:** MVVM expense tracker with Provider and local persistence, improving budget tracking clarity and input speed.
- Tasbeeh Counter:** Persistent counter app with minimal UI, improving ease and speed of daily use.
- CGPA Calculator:** Semester-based CGPA tool, improving academic tracking speed and accuracy.

COURSES & CERTIFICATIONS

- The Complete Flutter Development Bootcamp, Angela Yu (Udemy)
- Flutter & Dart: The Complete Guide, Maximilian Schwarzmüller (Udemy)
- Dart Programming Course, Asif Taj (YouTube)

EDUCATION

Bachelor of Science in Computer Science, COMSATS University Islamabad, Vehari Campus

2024 – 2028

Currently in 6th Semester
